

# PCL50 AND PCL65 PRECISION LINEAR MOTION FOR PROTOTYPES AND PRODUCTION

PRIMATICS.COM INFO@PRIMATICS.COM

### High Precision for Production

The PCL50 and PCL65 linear stages offer micron level repeatability and accuracy for 24/7 operation. They integrate a precision ballscrew drive with long lasting recirculating ball linear bearings into a compact package for any application. High reliability makes the PCL50 or PCL65 ideal for any production environment.

## Fast Delivery for Prototypes

Many models of the PCL50 and PCL65 are available from stock for your prototype project. These are not reduced performance models; they are the fully specified production ready models. Two week delivery is available for most models

Starting at under **\$2500**, precision motion with fast delivery is available at a great value.

### **Flexible Configurations**

Parameter	PCL50	PCL65
Travel (mm)	50 to 400	50 to 600
Payload (kg)	25	60
Repeatability (µm)	+/- 1	
Drivetrain - Class 5 ground ballscrew	5mm lead 10mm lead optional	
Limit Sensors	Forward and Reverse	
Coupling (in.)	1/4 and 3/8	
Motor Option	NEMA 23 servo motor with 4000 line encoder	
Dimensions (mm) H x W x L	50 x 110 x Travel+193	65 x160 x Travel+251

Directly stack PCL50 on PCL50 at 100mm tall Directly stack PCL50 on PCL65 at 115mm tall Directly stack PCL65 on PCL65 at 130mm tall
